1. Call to Order at 11:03
2. Preliminary application: 233 Route 81
3. Andy Annino, president of the Killingworth Land Conservation Trust, submitted a preliminary application for review. The 1935 ranch house is in extreme disrepair – most notably a failed roof. Homeowner (KLCT) has applied for demolition. The committee applied the criteria for a “significant building” as described in Chapter 238-3, Delay of Demolition Ordinance. After discussion there was agreement that the structure does not meet any of the criteria, despite the fact that the daughter of a culturally significant person (Ruth Robinson) lived in the house.

Rich moved that the proposed demolition of 233 Route 81 be permitted to proceed without further review from this committee. The motion, seconded by Hutchins passed unanimously.

4. Adjourned at 11:15.

Respectfully submitted

Lucinda Hogarty, Secretary
